WORKSITE SAFETY PARTNER PROGRAM

The Worksite Safety Partner Program has been developed as a method of delivering consistent, accessible, and high quality training to millions of students accross Canada.

Every day we work to place students into classrooms, blended learning programs, online training, and book based training depending on their needs and restrictions. To achieve this, we work with classroom instructors, on-call trainers, and affiliates to ensure that nobody every has to turn students away, regardless of their preferences or restrictions.

Ryan Donais | Director of Training & Partnerships

A handwritten signature in white ink, appearing to read 'Ryan', is written over the red background.

Classroom Partner

CLASSROOM PARTNER BENEFITS

- ✓ Receive Classroom Placements
- ✓ Significant Discount on Reference Manuals
- ✓ Take Part in Blended Training Programs
- ✓ Earn Commission on Referrals

Becoming a classroom partner means receiving client referrals and being part of a network of trainers that spans across Canada.

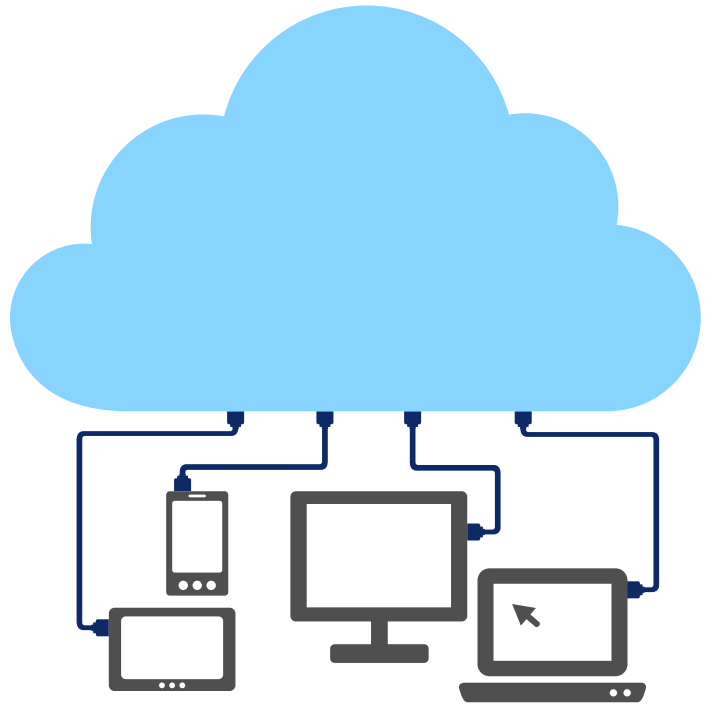

Whenever a student requires classroom training, we work to pair them with a nearby classroom provider that meets their needs. This includes the 600,000+ users/year on WorksiteSafety.ca as well as referrals from our classroom partners who for one reason or another are not able to facilitate the classroom training needs of their clients.

Online Partner

ELearning can serve as an excellent alternative to classroom training. Our courses are simple, convenient, thorough, and accessible.

Our entire course library has been developed to work on desktop/laptop computers, smart phones, tablets, and nearly any other device with an internet connection.

Upon completion of training, students receive a wallet & wall sized certificate which can be printed off for immediate use.

AFFILIATE

No Setup Fee

- ✓ Commission on Referrals
- ✓ Same Day Setup
- ✓ Up to the Minute Sales Reporting
- ✓ Lifetime Commissions

Refer students to WorkSiteSafety.ca for their online training needs and earn a lifetime commission on any of their purchases.

Add a link to your website, email a link to your clients, or pass out coupons / discount codes.

RESELLER

\$2,500 Setup Fee

- ✓ Commission on Referrals
- ✓ 1-2 Week Setup Time Required
- ✓ Design Matched to Your Business
- ✓ Live Tech Support

Sell training directly to your clients through your own web store.

A reseller website is an excellent way to sell elearning directly to your clients in addition to other goods and services such as booking classroom training.

Course Authoring And Custom Training Modules

Worksite Safety also offers the services of industry leading instructional designers.

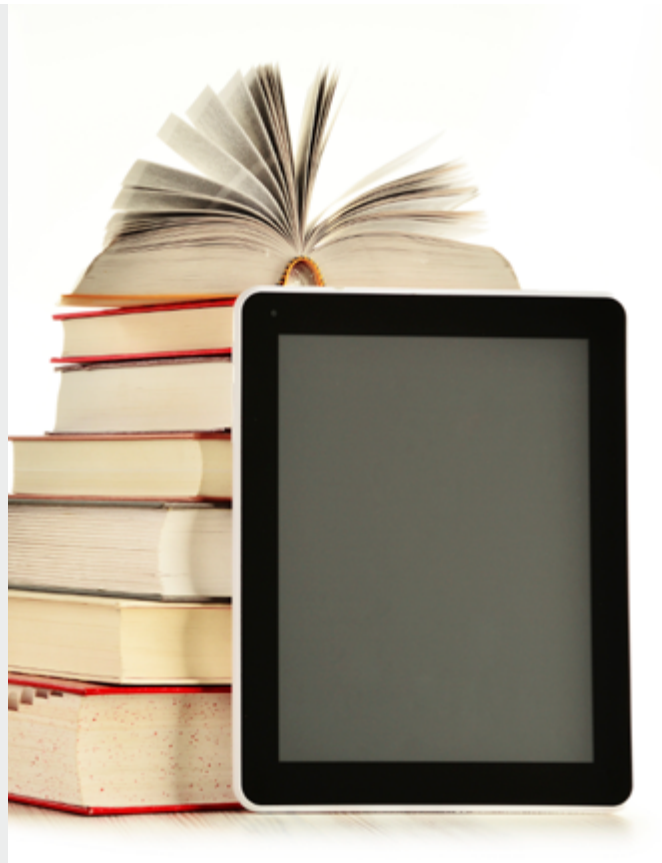

We work with our partners to bring their classroom content to life as eLearning as well as developing custom training modules to incorporate site-specific training for corporate clients.

Content Conversion

Depending on your needs, we can convert a PDF, Document, Powerpoint, Video etc... into an eLearning presentation that can be delivered online through your own site or for resale through the partner network.

This conversion process can be as simple as duplicating the learning experience in an online environment. Voiceover and interactive activities may also be included. If you would prefer a more involved learning experience.

Authoring Services

Need a course authored?

We can help.

Our instructional designers have extensive experience creating entire courses from scratch. We can develop a new course to deliver in a classroom, online, or as a training manual.

We can also develop training modules to be added to existing training presentations. Often this can be useful for corporate clients who may require site specific training to be included with more generic training.
